SUBJECT INDEX TO VOLUME 117

Abdomen, surgery, Experiences with wire closure of abdominal incisions in 293 selected patients, 235; surgery, Relative importance of suture to strength of healing wounds under normal and abnormal conditions, 396; diagnosis of acute conditions, Diagnostic errors in management of ectopic pregnancy, 589

Abnormalities and deformities, Imperforate hymen with occult menstruation, 618; Improvement of therapy for congenital jejunoileal atresia, 691

Abscess, Treatment of incipient pilonidal, 365

Adenocarcinoma, Survival study in renal cell carcinoma, 7

Aged, See Geriatrics

American College of Surgeons, Clinical Congress, 1963, San Francisco, Preliminary plans for 49th, 50th anniversary year, Civic Auditorium, 28 October to 1 November, 127; 253; 379; 513

Amine buffer, tris (hydroxymethyl) amino methane (THAM), Effect of, in 549, on renal blood flow and during hemorrhagic shock, 715

Amputation, Surgical procedures for leg ischemia in 549 consecutive cases, 686

Anesthesia, local, Seven steps to, for inguinofemoral hernia repair, 115; Cervical epidural, for carotid endarterectomy, 366

Aneurysm, Some principles in management of peripheral artery, 156; aortic, Long term results following resection of arteriosclerotic abdominal, 355; of celiac artery, 563

Angia, Visceral, 417

Angiography, Management of carotid body tumors, 722

Ankle, Ambulatory treatment for sprains of talofibular ligaments among paratroopers, 368

Antibiotics, prophylaxis in cancer surgery and its value in staphylococcal carrier patients, 1

Anus, surgery, Pain and bleeding after anorectal operations with special reference to anal dressings, 56; Sphincterotomy in anorectal surgery, 505

Aorta, surgery, Long term results following resection of arteriosclerotic abdominal aortic aneurysms, 355; abdominal, Blood flow during induced hypotension, 469

Arfonad, Blood flow during induced hypotension, 469

Arteries, iliac, Collateral circulation after massive occlusion of pelvic vessels, 20; carotid, Use of autogenous dermis for protection of, and pharyngeal suture lines in radical head and neck surgery, 37; anastomosis, Suture, of small, 44; anatomy, Blood supply of common bile duct, 47; Pulmonary, embolectomy utilizing cardiopulmonary bypass, 71; Ligation of hypogastric (internal iliac), in control of hemorrhage from carcinoma of cervix, 94; peripheral, Some principles in management of, aneurysms, 156; uterine, Evidence for arteriovenous fistula in gravid uterus, 301; anastomosis, Simple method of reinforcing arterial, 363; carotid, Cervical epidural anesthesia for, endarterectomy, 366; carotid, Surgical treatment of, thrombosis, 402; Visceral, angina, 417; Blood flow, during induced hypotension, 469; celiac, Aneurysms of, 563; grafts, Surgical procedures for leg ischemia in 549 consecutive cases, 686; carotid, Management of, body tumors, 722; Hepatic, arterial and portal venous circulatory changes following acute hemorrhage in dog, 753

Arteriosclerosis, Long term results following resection of, abdominal aortic aneurysms, 355

Ascites, Experimental study of effectiveness of portal vein as hepatic outflow tract, 67

Asepsis, Boils and carbuncles, ed. 231

Atherosclerosis, Visceral angina, 417; Surgical procedures for leg ischemia in 549 consecutive cases, 686

Bacteria, Laparotomy pad impervious to endogenous microorganisms, 506

Bank, bone, Seven years' experience with irradiated, graft material, 573

Bile ducts, Blood supply, of common, 47; visualization, Inhibitions concerning choledochoscope, ed. 110; surgery, Technique of common duct exploration, 241

Biliary tract, anatomy, Blood supply of common bile duct, 47; Concept of surgical biliary compression in management of liver trauma, 285

Bladder, inflammation, surgery, Treatment of interstitial cystitis with intestinal cystoplasty using seromuscular ileal and sigmoid segments, 185; physiology, Cystometry in evaluation of nerve root compression in lumbar spine, 263

Blanket, thermal exchange, Servo temperature control instrument for use in clinical medicine, 636

Blood, circulation, Collateral, after massive occlusion of pelvic vessels, 20; circulation, extracorporeal, Pulmonary embolectomy utilizing cardiopulmonary bypass, 71; circulation, extracorporeal, transportation, Studies of transported human, 105; circulation, cross, Treatment of experimental hepatic coma by parabiotic, 129; fibrinogen, Fibrinolytic activity in cirrhosis of liver, 139; circulation, extracorporeal, Bypass operation for occlusion of hepatic inferior vena cava, 151; circulation, Mechanism of mannitol diuresis, 221; coagulation, Prevention of thrombosis in inferior vena cava, 271; circulation, Prolongation of time of "safe" circulatory arrest by preliminary hyperbaric oxygenation and body cooling, 411; circulation, flow during induced hypotension, 469; circulation, extracorporeal, Effect of glass wool filtration on, during, 547; circulation, Effect of hypothermia on circulatory reflexes in human, 553; calcium, Hypercalcemia in carcinoma of female breast, 709; circulation, Hepatic arterial and portal venous circulatory changes following acute hemorrhage in dog, 753

Blood pressure, Evidence for arteriovenous fistula in gravid uterus, 301; low, Quantitation and identification of vasoactive substances liberated during various types of experimental and clinical intestinal ischemia, 315; low, Blood flow during induced hypotension, 469; high, Conversion of portal vein to "outflow tract" is misnomer, ed. 499; Effect of glass wool filtration on blood during extracorporeal circulation, 547; low, Effect of amine buffer tris (hydroxymethyl), amino methane (THAM) on renal blood flow during hemorrhagic shock, 715

Blood vessels, ligation, Collateral circulation after massive occlusion of pelvic, 20; grafts, Endothelial lining of vascular, 305; Periosteal, changes in immediate postfracture period, 311; Mechanisms of vascular homeostasis, ed. 495

Boils, and carbuncles, ed. 231

Bone, Periosteal vessel changes in immediate postfracture period, 311; grafts, Seven years' experience with irradiated, material, 573; grafts, regeneration, Experimental study of cortical "matchstick," to reinforce immature callus, 611

Book Shelf, Postscript to surgical legend of William Stewart Halsted and introduction of rubber gloves to surgery, 121; Fleece Inn Medical Society, 371; Benjamin Rush, Philip Syng Physick, and resurrectionists, 774
Bougienage, Treatment of peptic stenosis of esophagus, ed. 633
Branchial apparatus, Excision of, sinus and fistula tracts using arterial intimal strippers, 767
Breast, Cancer, of, in Negroes, 97; cancer, Comparison of survival rates between American and Japanese patients with, 196; cancer, Proliferative histologic changes and occult carcinoma in, of aging female, 425; cancer, Clinical significance of skin recurrence after radical mastectomy in women with, of, 447; plastic surgery, Observations on subcutaneously implanted polyetherurethane sponge in mice, 454; cancer, Chemotherapy of disseminated, ed. 634; cancer, Hypercalcemia in carcinoma of female, 709
British National Health Service, Different perspective of, ed. 108
Bronchography, Safer bronchographic technique for use in children, 501
Burns, treatment, Results of, of severe, 540; healing, Restoration and remodeling of skin after second degree, 738

Cancer, surgery, Antibiotic prophylaxis in, and its value in staphylococcal carrier patients, 1; Recurrence, after treatment of carcinoma in situ of cervix, 15; breast, of, in Negroes, 97; chemotherapy, Enzyme studies on sulfhydryl inhibitors for, therapy, 172; statistics, Comparison of survival rates between American and Japanese patients with breast, 196; Radiation treatment of, of esophagus, 346; recurrence, Clinical significance of skin, after radical mastectomy in women with, of breast, 447; lung, Opinion and reason, ed. 497; metastasis, Studies of autotransplantation of incurable, 567; Chemotherapy, of disseminated breast, ed. 634; disseminated, Hypercalcemia in carcinoma of female breast, 709
Carbuncles, Boils and, ed. 231
Carcinoma, adenocarcinoma, renal cell, Survival study in, 7; in situ, Recurrence, after treatment of, of cervix, 15; Ligation of hypogastric (internal iliac) arteries in control of hemorrhage from, of cervix, 94; squamous cell, Ten year appraisal of treatment of, of esophagus, 167; ovarian, Radical pelvic surgery combined with radiotherapy in treatment of locally advanced, 201; rectum, Rectal, 205; Chemosurgical management of, of external ear, 244; Clinical study of primary, of gallbladder, 297; breast, Proliferative histologic changes and occult, in, of aging female, 425; gallbladder, Long term survival in, of, 459; Relationship between radiation injury to skin and subsequent malignant change, 559; pancreas, Pancreatic calcification and cancer of, 585; Effect of vaginal bleeding on survival in ovarian, 601; inoperable, Use of Celestin indwelling plastic tube for, of esophagus and cardia, 641
Carotid body, Management of, tumors, 722
Cartilage, Cartilaginous tumors of larynx, 77
Cells, Inside, and beyond, ed. 359
Chemotherapy, Enzyme studies on sulfhydryl inhibitors for cancer therapy, 172; Osteitis pubis, 277; of disseminated breast cancer, ed. 634
Children, Radioisotope liver scanning in, as diagnostic aid to surgeon, 41; Surgical treatment of epispadias, 465; Ovarian cysts and tumors in, 477; Safer bronchographic technique for use in, 501
Choledochoscope, Inhibitions concerning, ed. 110
Cholelithiasis, See Gallbladder, calculus
Cigarettes, Opinion and reason, ed. 497
Cirrhosis, See Liver, cirrhosis
Classification, Practical system of diagnosis and, of pelvic relaxations, 769
Colitis, See Colon, inflammation
Colon, perforation, Acute, in infants, 61; inflammation, Primary resection of, for ulcerative colitis, 438
Coma, hepatic, Treatment of experimental, by parabiotic cross circulation, 129
Coronary artery, Experimental study of oxygen differential theory of ventricular fibrillation, 677
Cysts, Internal drainage for pseudocyst of pancreas, 327; Ovarian, and tumors in children, 477; sebaceous, Alternate method for removing, 645; Surgical significance of parathyroid, 703
Cystadenocarcinoma, Clinicopathological study of, of pancreas, 189
Cystitis, See Bladder, inflammation
Cystometry, in evaluation of nerve root compression in lumbar spine, 263
Cystoplasty, Treatment of interstitial cystitis with intestinal, using seromuscular ileal and sigmoid segments, 185

Decortication, for chronic nontuberculous empyema, 443
Dextran, Prevention of thrombosis in inferior vena cava, 271
Diagnosis, Radioisotope liver scanning in children as diagnostic aid to surgeon, 41; Treatment of interstitial cystitis with intestinal cystoplasty using seromuscular ileal and sigmoid segments, 185; differential, Clinical study of primary carcinoma of gallbladder, 297; differential, Benign tumors of small intestine, 473; Aneurysms of celiac artery, 563; differential, Diagnostic errors in management of ectopic pregnancy, 589; differential, Intrathoracic goiter, 604; Improvement of therapy for congenital jejunoileal atresia, 691; Practical system of, and classification of pelvic relaxations, 769
Diuresis and diuretics, Mechanism of mannitol, 221
Drainage, Appraisal of paralytic ileus and necessity for postoperative gastrointestinal suction, 294; Internal, for pseudocyst of pancreas, 327; Decortication for chronic nontuberculous empyema, 443; Influence of prophylactic, on results of duodenal stump perforation, 623; Constant wound suction for ambulatory patient, 651
Dressings, Pain and bleeding after anorectal operations with special reference to anal, 56
Duodenum, perforation, Acute, in infants, 61; ulcer, Physiological basis for surgical treatment of sliding esophageal hiatal hernia, 87; ulcers, Technique for rapid vagotomy, 113; Influence of prophylactic drainage on results of duodenal stump perforation, 623

Ear, Chemosurgical management of carcinoma of external, 244
Editorial, Different perspective of British National Health Service, 108; Inhibitions concerning choledochoscope, 110; Postoperative renal failure, 229; Boils and carbuncles, 231; Inside cell and beyond, 359; Transplantation of heart, 361; Mechanisms of vascular homeostasis, 495; Opinion and reason, 497; Conversion of portal vein to "outflow tract" is misnomer, 499; Treatment of peptic stenosis of esophagus, 633; Chemotherapy of disseminated breast cancer, 634; Is your operative record complete, 759; Anatomy of surgical judgment, 761
Electrodes, Human tissue response to long term implanted cardiac pacemaker-, system, 484; Experimental study of oxygen differential theory of ventricular fibrillation, 677

Embolism, Pulmonary, embolectomy utilizing cardiopulmonary bypass, 71
Empyema, Decortication for chronic nontuberculous, 443
Endoscopy, Inhibitions concerning choledochoscope, ed. 110
Endothelium, Endothelial lining of vascular grafts, 305
Enzymes, studies on sulfhydryl inhibitors for cancer therapy, 172; Pancreatography with particular reference to activation of pancreatic, 405; Proximal loop tubes and their application, 628
Epidemiology, Comparison of survival rates between American and Japanese patients with breast cancer, 196
Epispadias, See Urethra, anomalies
Esophagus, varix, Late results of transesophageal suture of bleeding, varices, 10; Strength of esophageal anastomoses repaired with autogenous pericardial grafts, 83; hernia, Physiological basis for surgical treatment of sliding esophageal hiatal, 87; cancer, Ten year appraisal of treatment of squamous cell carcinoma of, 167; Radiation treatment of cancer of, 346; stricture, Treatment of peptic stenosis of, ed. 633; cancer, Use of Celestin indwelling plastic tube for inoperable carcinoma of, and cardia, 641
Exercise, Active program of treatment for patients with fractures of dorsolumbar spine, 763
Exostosis, Multiple polyposis, and soft tissue tumors, 489

Fibrinolysis, Fibrinolytic activity in cirrhosis of liver, 139
Fistula, arteriovenous, Evidence for, in gravid uterus, 301; branchial, Excision of, sinus and, tracts using arterial intimal strippers, 767
Fleece Inn Medical Society, 371
Fractures, Periosteal vessel changes in immediate postfracture period, 311; treatment, Experimental study of cortical "matchstick" grafts to reinforce immature callus, 611; treatment, Method of, for tibial shaft, 647; Active program of treatment for patients with, of dorsolumbar spine, 763

Gallbladder, cancer, Clinical study of primary carcinoma of, 297; cancer, Long term survival in carcinoma of, 459; calculus, Treatment of cholelithiasis, 529
Gastrectomy, See Stomach, excision
Gastric acid, See Stomach, secretions
Gastrointestinal tract, surgery, Factors influencing mortality following emergency operation for massive upper, hemorrhage, 257; intubation, Appraisal of paralytic ileus and necessity for postoperative, suction, 294; sarcoma, Primary lymphosarcoma of, 433
Gelatin foam, Pain and bleeding after anorectal operations with special reference to anal dressings, 56
Geriatrics, Proliferative histologic changes and occult carcinoma in breast of aging female, 425
Glass wool, Effect of, filtration on blood during extracorporeal circulation, 547
Glomus tumor, 334
Gloves, rubber, Postscript to surgical legend of William Stewart Halsted and introduction of, to surgery, 121
Goiter, Intrathoracic, 604
Grafts, skin, Use of autogenous dermis for protection of carotid artery and pharyngeal suture lines in radical head and neck surgery, 37; Strength of esophageal anastomosis repaired with autogenous pericardial, 83; arterial, teflon, Some principles in management of peripheral artery aneurysms, 156; vascular, Endothelial lining of, 305; dacron, Simple method of reinforcing arterial anastomoses, 363; skin, Results of treatment of severe burns, 540; bone, Seven years' experience with irradiated, material, 573; Experimental study of cortical "matchstick," to reinforce immature callus, 611

Head, Use of autogenous dermis for protection of carotid artery and pharyngeal suture lines in radical, and neck surgery, 37
Heart, Transplantation, of, ed. 361; disease, Human tissue response to long term implanted cardiac pacemaker-electrode system, 484; muscle, Experimental study of oxygen differential theory of ventricular fibrillation, 677
Hemodynamics, Mechanisms of vascular homeostasis, ed. 495; Effect of hypothermia on circulatory reflexes in human, 553; Effect of amine buffer tris (hydroxymethyl), amino methane (tham) on renal blood flow during hemorrhagic shock, 715; Hepatic arterial and portal venous circulatory changes following acute hemorrhage in dog, 753
Hemorrhage, Late results of transesophageal suture of bleeding esophageal varices, 10; Pain and bleeding after anorectal operations with special reference to anal dressings, 56; Ligation of hypogastric (internal iliac) arteries in control of, from carcinoma of cervix, 94; Fibrinolytic activity in cirrhosis of liver, 139; Factors influencing mortality following emergency operation for massive upper gastrointestinal, 257; Mechanisms of vascular homeostasis, ed. 495; experimental, Effect of amine buffer tris (hydroxymethyl), amino methane (tham) on renal blood flow during, shock, 715; Hepatic arterial and portal venous circulatory changes following acute, in dog, 753
Heparin, Studies of transported human blood, 105
Hernia, hiatal, Physiological basis for surgical treatment of sliding esophageal, 87; inguinofemoral, Seven steps to local anesthesia for, repair, 115; surgery, repair with knitted polypropylene mesh, 239
Histology, Restoration and remodeling of skin after second degree burn, 738
Homeostasis, Mechanisms of vascular, ed. 495
Homografts, renal, Reversal of rejection in human, with subsequent development of, tolerance, 385; hepatic, Homotransplantation of liver in humans, 659
Hospitals, records, Is your operative, complete, ed. 759
Hymen, Imperforate, with occult menstruation, 618
Hypercalcemia, in carcinoma of female breast, 709
Hypothermia, Prolongation of time of "safe" circulatory arrest by preliminary hyperbaric oxygenation and body cooling, 411; Effect of, on circulatory reflexes in human, 553

Ileum, Improvement of therapy for congenital jejunoileal atresia, 691
Ileus, See Intestines, obstruction
Immunity, Reversal of rejection in human renal homografts with subsequent development of homograft tolerance, 385; Homotransplantation of liver in humans, 659
Infants, Acute perforation in, 61; Acute recurrent intussusception, 323; anomalies, Improvement of therapy for congenital jejunoileal atresia, 691
Infection, treatment, Antibiotic prophylaxis in cancer surgery and its value in staphylococcal carrier patients, 1; Laparotomy pad impervious to endogenous microorganisms, 506
Instruments and apparatus, choledochoscope, Inhibitions concerning, ed. 110; stripper, Refinement of surgical technique of vein stripping, 233; Servo temperature control, for use in clinical medicine, 636; Constant wound suction used for ambulatory patient, 651

Intestines, perforation, Acute, in infants, 61; obstruction, Appraisal of paralytic ileus and necessity for postoperative gastrointestinal suction, 294; blood supply, Quantitation and identification of vasoactive substances liberated during various types of experimental and clinical, ischemia, 315; intussusception, Acute recurrent, 323; Benign tumors of small, 473
Intubation, Proximal loop tubes and their application, 628; Use of Celestin indwelling plastic tube for inoperable carcinoma of esophagus and cardia, 641
Intussusception, See Intestines, intussusception
Ischemia, Quantitation and identification of vasoactive substances liberated during various types of experimental and clinical intestinal, 315; Experimental study of oxygen differential theory of ventricular fibrillation, 677; Surgical procedures for leg, in 549 consecutive cases, 686

JAPAN, Comparison of survival rates between American and Japanese patients with breast cancer, 196
Jejunum, Improvement of therapy for congenital jejunoileal atresia, 691
Jenner, Edward, Fleece Inn Medical Society, 371
Judgment, surgical, Anatomy of, ed. 761

KIDNEYS, tumors, Survival study in renal cell carcinoma, 7; physiology, Normothermic perfusion of isolated dog's, on pump oxygenator system, 161; physiology, Mechanism of mannitol diuresis, 221; degeneration, Postoperative renal failure, ed. 229; transplantation, Reversal of rejection in human renal homografts with subsequent development of homograft tolerance, 385; blood supply, Effect of amine buffer tris (hydroxymethyl), amino methane (THAM) on renal blood flow during hemorrhagic shock, 715; physiology, Evaluation of renal function in shock with radioisotope renogram, 733

LAPAROTOMY PAD, impervious to endogenous microorganisms, 506
Larynx, Cartilaginous tumors of, 77
Leg, blood supply, Surgical procedures for, ischemia in 549 consecutive cases, 686
Ligament, talofibular, Ambulatory treatment for sprains of, among paratroopers, 368
Liver, regeneration, Effect of partial hepatectomy on autotransplanted, tissue, 29; disease, Radioisotope, scanning in children as diagnostic aid to surgeon, 41; blood supply, Experimental study of effectiveness of portal vein as hepatic outflow tract, 67; disease, Treatment of experimental hepatic coma by parabiotic cross circulation, 129; cirrhosis, Fibrinolytic activity in, of, 139; congestion, Bypass operation for occlusion of hepatic inferior vena cava, 151; injuries, Concept of surgical biliary compression in management of, trauma, 285; surgery, Injury to hepatic vein during mobilization of left lobe of, 502; transplantation, Homotransplantation of, in humans, 659; blood supply, Hepatic arterial and portal venous circulatory changes following acute hemorrhage in dog, 753
Lungs, surgery, Decortication for chronic nontuberculous empyema, 443; cancer, Opinion and reason, ed. 497

Surgery, postoperative complications, Antibiotic prophylaxis in cancer, and its value in staphylococcal carrier patients, 1; experimental, Effect of partial hepatectomy on autotransplanted liver tissue, 29; radical, Use of autogenous dermis for protection of carotid artery and pharyngeal suture lines in, head and neck, 37; technique, Suture anastomosis of small arteries, 44; Experimental, study of effectiveness of portal vein as hepatic outflow tract, 67; experimental, Strength of esophageal anastomoses repaired with autogenous pericardial grafts, 83; technique, Physiological basis for surgical treatment of sliding esophageal hiatal hernia, 87; Technique, for rapid vagotomy, 113; experimental, Treatment of, hepatic coma by parabiotic cross circulation, 129; postoperative complications, Study of factors affecting incidence and dura-

tion of, pneumoperitoneum, 145; experimental, Normothermic perfusion of isolated dog's kidney on pump oxygenator system, 161; postoperative, Complications, in hospital following partial gastrectomy for peptic ulcer, 211; Postoperative, complications, renal failure, ed. 229; technique, Refinement of surgical, of vein stripping, 233; technique, Experiences with wire closure of abdominal incisions in 293 selected patients, 235; technique, Hernia repair with knitted polypropylene mesh, 239; Technique, of common duct exploration, 241; emergency, Factors influencing mortality following, operation for massive upper gastrointestinal hemorrhage, 257; postoperative complications, Osteitis pubis, 277; Postoperative complications, Appraisal of paralytic ileus and necessity for, gastrointestinal suction, 294; progress, Inside cell and beyond, ed. 359; technique, Simple method of reinforcing arterial anastomoses, 363; technique Surgical treatment of epispadias, 465; postoperative complications, Treatment of cholelithiasis, 529; postoperative, Complications, of secondary thyroidectomy, 535; experimental, Studies of autotransplantation of incurable cancer, 567; postoperative complications, Mechanical, following subtotal gastrectomy, 578; experimental, Urine flow and ureteral repair, 597; Experimental, study of cortical "matchstick" grafts to reinforce immature callus, 611; postoperative complications, Influence of prophylactic drainage on results of duodenal stump perforation, 623; technique, Alternate method for removing sebaceous cysts, 645; postoperative care, Constant wound suction for ambulatory patient, 651; Experimental, study of oxygen differential theory of ventricular fibrillation, 677; technique, Improvement of therapy for congenital jejunoileal atresia, 691; principles and surgical practice, Anatomy of surgical judgment, 761; technique, Excision of branchial sinus and fistula tracts using arterial intimal strippers, 767

Sutures, Relative importance of, to strength of healing wounds under normal and abnormal conditions, 396

Sympathectomy, lumbar, Surgical procedures for leg ischemia in 549 consecutive cases, 686

TEMPERATURE, Prolongation of time of "safe" circulatory arrest by preliminary hyperbaric oxygenation and body cooling, 411; Servo, control instrument for use in clinical medicine, 636

Tensile strength, Relative importance of sutures to, of healing wounds under normal and abnormal conditions, 396

Thorax, Intrathoracic goiter, 604

Thromboendarterectomy, Surgical procedures for leg ischemia in 549 consecutive cases, 686

Thrombosis, Bypass operation for occlusion of hepatic inferior vena cava, 151; Prevention of, in inferior vena cava, 271; Surgical treatment of carotid, 402; Mechanisms of vascular homeostasis, ed. 459

Thyroid, surgery, Complications of secondary thyroidectomy, 535; Intrathoracic goiter, 604

Thyroidectomy, See Thyroid, surgery

Tibia, Method of treatment of patients with tibial shaft fractures, 647

Tissue, Human, response to long term implanted cardiac pacemaker-electrode system, 484; Multiple polyposis, exostosis, and soft tumors, 489; regeneration, Restoration and remodeling of skin after second degree burn, 738; Soft, injuries of neck, 745

Transplantation, liver, Effect of partial hepatectomy on autotransplanted, tissue, 29; heart, of, ed. 361; kidney, Reversal of rejection in human renal homografts with subsequent development of homograft tolerance, 385; Studies of autotransplantation of incurable cancer, 567; liver, Homotransplantation of, in humans, 659

Trauma, Concept of surgical biliary compression in management of liver, 285; Ambulatory treatment for sprains of talofibular ligaments among paratroopers, 368; operative, Injury to hepatic vein during mobilization of left lobe of liver, 502; Relationship between radiation injury to skin and subsequent malignant change, 559; Soft tissue injuries of neck, 745

Trypsin, Pancreatography with particular reference to activation of pancreatic enzymes, 405

Tubes, Proximal loop, and their application, 628; Use of Celestin indwelling plastic, for inoperable carcinoma of esophagus and cardia, 641

Tumors, Survival study in renal cell carcinoma, 7; myoblastoma, Granular cell, of vulva, 25; chondromatous, Cartilaginous, of larynx, 77; Glomus, 334; melanoma, Malignant, of unknown primary origin, 341; Benign, of small intestine, 473; Ovarian cysts and, in children, 477; soft tissue, Multiple polyposis, exostosis, and, 489; paraganglioma, Management of carotid body, 722

URETERS, surgery, Urine flow and ureteral repair, 597

Urethra, anomalies, Surgical treatment of epispadias, 465

Urine, secretion, Mechanism of mannitol diuresis, 221; retention, Postoperative renal failure, ed. 229; flow and ureteral repair, 597

Uterus, Recurrence after treatment of carcinoma in situ of cervix, 15; cervix, Ligation of hypogastric (internal iliac) arteries in control of hemorrhage from carcinoma of, 94; Evidence of arteriovenous fistula in gravid, 301; hemorrhage, Effect of vaginal bleeding on survival in ovarian carcinoma, 601; prolapse, Practical system of diagnosis and classification of pelvic relaxations, 769

VAGINA, Effect of vaginal bleeding on survival in ovarian carcinoma, 601

Vagotomy, See Nervous system, sympathetic

Varices, esophageal, Late results of transesophageal suture of bleeding, 10

Vasoactive substances, Quantitation and identification of, liberated during various types of experimental and clinical intestinal ischemia, 315

Veins, hepatic, Bypass operation for occlusion of, inferior vena cava, 151; surgery, Refinement of surgical technique of, stripping, 233; portacaval shunt, Conversion of, to "outflow tract" is misnomer, ed. 499; hepatic, Injury to, during mobilization of left lobe of liver, 502

Venae cavae, Bypass operation for occlusion of hepatic inferior, 151; Prevention of thrombosis in inferior, 271

Ventricular fibrillation, Experimental study of oxygen differential theory of, 677

Vulva, Granular cell myoblastoma of, 25

WIRE SUTURES, Experiences with, closure of abdominal incisions in 293 selected patients, 235

Wounds, infection, Antibiotic prophylaxis in cancer surgery and its value in staphylococcal carrier patients, 1; healing, Strength of esophageal anastomoses repaired with autogenous pericardial grafts, 83; healing, Boils and carbuncles, ed. 231; closure, Experiences with wire, of abdominal incisions in 293 selected patients, 235; healing, Hernia repair with knitted polypropylene mesh, 239; healing, Relative importance of sutures to strength of, under normal and abnormal conditions, 396; infection, Laparotomy pad impervious to endogenous microorganisms, 506; Constant, suction for ambulatory patient, 651
